

New Trouble ticket 1 (DEB): After setting “Document Type” once, if that was wrong, you’re screwed. The option to “Edit document description” is removed from the “three dot” options. That’s not good user interface design. Humans make errors. Don’t remove the option to fix it!

The screenshot shows the USPTO Patent Center interface. The browser address bar displays the URL: <https://patentcenter.uspto.gov/submissions/d9570fa9-f018-4a05-b2e0-7154>. The page header includes the USPTO logo and navigation links: Patents, Trademarks, Fees and payment, Contact Us, MyUSPTO, and a user profile for David Boudy. The main navigation bar contains: Home, New submission, Existing submissions, Petitions, Post grant, Workbench, Manage, Search, and Patent Center Help.

A yellow warning box at the top states: "an application data sheet or a cover letter identifying the application as a provisional application that meets the requirements of § 1.51(c)(1)."

The "Upload documents" section shows a "Select file(s)..." button and a link for "Help with document description". Below this, it indicates "Total documents uploaded: 6" with a "Download all documents" link.

The document list includes:
